Course Description:

This is a twenty four hour interactive course on the foundation and development of the rubric designed which will teach instructors and course designers how to make a rubric for his or her particular needs. The course will start by introducing the rubrics and how it is being used. Students will be given case studies presented with electronic media and presentation style lectures to enhance the ability to create a rubric evaluation. The students will be able to create various components of the rubrics by utilizing innovative activities and practical to drive home the point.

The training will not only develop the officers in basic rubric development, but will also take the existing training they have and bring it to a higher level of learning and expectation for a successful evaluation. The course will explore different ways we can develop the rating system from within and structure the foundation to impact how we teach and how we evaluate our courses.
